

SYED RAHID AHMED

Sr. Switch Technician | Telecom Operations & RAN/Transport Specialist
Clarksburg, MD, 20871 | [571.305.1133](tel:571.305.1133) | Rahid905@gmail.com

SUMMARY

CCNA-certified Senior Switch & Telecom Specialist with over 15 years of hands-on experience in switch operations, facility management, and RAN/transport network engineering across T-Mobile and Sprint footprints. Proven domain expert in 5G NR/LTE architecture (eNodeB/gNodeB), Cisco routing/switching, Nokia NetAct, and Ericsson ENM. Highly skilled in switch facility operations, disaster recovery activations—including Hurricane Helene restoration in the Deep South—and special deployments (NSD, DAS, emergency COWs for major stadium and public events). Proficient in T-Mobile operational systems (ATOMS, RIOT, OneConsole, OneTransport, CBN tools) and building management platforms. Demonstrated leader in War-Room outage response, ITIL-compliant change management, and formally mentoring junior technicians in technical theory and operational discipline.

CORE COMPETENCIES

- Switch & Facility Operations: Switch Maintenance, Facility Checks, Power/BMS Monitoring (Schneider Electric EcoStruxure), Disaster Recovery (DR) Activation, Alarm Management, ITIL Change Management
- 5G/4G RAN & Core Infrastructure: 5G New Radio (NR), eNodeB/gNodeB, Core Network Elements, NSD, DAS & Emergency COW Deployments, Call Servers, BSC, RNC
- Routing, Transport & Hardware: SAS/MAD Routers, Cisco Catalyst, IP Routing (BGP, OSPF), MPLS, Backhaul (Fiber/Microwave), L2/L3 Switching, 1G/10G/100G Provisioning
- T-Mobile Tools & Software: ATOMS, OneTransport, RIOT, OneConsole, CBN Tools, EAI/Netviewer, Nokia NetAct, Ericsson ENM, AMOS, Scripting (Shell/Bash, JavaScript, Batch)
- Leadership & Compliance: Technical Mentorship, Junior Tech Onboarding & Training, MOP Development, War-Room Command, E911 / CBN Audits & Reconciliation

EDUCATION

- Bachelor of Science in Computer Science — Information Systems Security
- Associate of Arts in Computer Science — Computer Networking Systems

CERTIFICATIONS

- CCNP – Routing & Switching (Cisco Certified Network Professional)
- MCP – Microsoft Certified Professional
- CompTIA A+

SYED RAHID AHMED

Sr. Switch Technician | Telecom Operations & RAN/Transport Specialist
Clarksburg, MD, 20871 | [571.305.1133](tel:571.305.1133) | Rahid905@gmail.com

PROFESSIONAL EXPERIENCE

NextGen Telecommunication (Client: T-Mobile) | Hammond, LA (On-Site)

Sr. Switch Technician / Engineer | May 2022 – March 2026

- Led switch operations and technical direction across regional sites, managing full integration and cutover for 500+ cell sites, including specialized NSD, DAS (stadium/venue setups), and emergency COW deployments.
- Executed disaster recovery activations and emergency restorations, including direct network response for Hurricane Helene restoration across the Deep South region.
- Monitored switch facilities and environmental controls using Schneider Electric EcoStruxure (BMS), ensuring operational stability and rapid fault containment.
- Developed and executed automated scripts for SAS/MAD routers and backhaul circuits (1G/10G/100G), cutting turn-up times by 40% across 300+ quarterly circuits.
- Directed War-Room operations during critical outages and cutovers, leading a 6-member cross-functional team to isolate multi-layer RF and transport issues under tight SLAs.
- Formally trained and onboarded 6 junior technicians on switch operations, router configuration, and MOP execution, instilling strong operational discipline.
- Utilized ATOMS, RIOT, and OneConsole to audit and automate E911 call records and CBN data workflows, resolving 200+ discrepancies between PSAP and GMLC databases.
- Designed a market-wide Cell Site Integration Tracker in SharePoint, reducing management reporting overhead by 60%.

WAVSYS Telecommunication (Client: T-Mobile) | Miami, FL (Remote)

Sr. Switch Technician / Engineer | May 2019 – March 2022

- Managed BSS, RAN, and switch operations remotely across 1,000+ cell sites using Nokia NetAct, Ericsson ENM, and OneTransport.
- Executed data fills for Media Gateway Call Servers, BSC, and RNC platforms, expanding regional T-Mobile coverage by 15% YoY.
- Authored MOPs and technical documentation for cell site lifecycle workflows, standardizing procedures for 12 engineers and reducing provisioning errors by 35%.
- Performed daily switch facility equipment checks and maintenance scheduling, maintaining 99.5% operational uptime.
- Executed Change Implementation Requests (CIQs) and ITIL-compliant change windows to optimize cell parameters across 200+ sites, improving call drop and handover KPIs.

Kineticom Telecommunication (Client: T-Mobile) | Austin, TX (Hybrid)

Sr. Switch Technician / Engineer | December 2016 – April 2019

- Isolated and resolved multi-layer transport and RAN faults spanning backhaul networks, cell site routers, and Radio Access infrastructure.
- Executed disaster recovery protocols to rehome and back up 150+ cell sites during OSS platform consolidations with zero service disruption.
- Centralized 500+ cell site configurations into a unified SharePoint repository, cutting troubleshooting resolution time by 30%.
- Automated daily integration and alarm reporting, reducing manual tracking overhead by 75%.

SYED RAHID AHMED

Sr. Switch Technician | Telecom Operations & RAN/Transport Specialist
Clarksburg, MD, 20871 | [571.305.1133](tel:571.305.1133) | Rahid905@gmail.com

Apricot Consulting LLC (Client: T-Mobile) | Austin, TX (On-Site)

Sr. Switch Technician / Engineer | May 2015 – December 2016

- Configured and optimized BSC/RNC parameters supporting 300+ new RAN activations.
- Reconciled E911 data in Media Gateway Call Servers, correcting 150+ routing discrepancies against PSAP databases.
- Developed structured troubleshooting methodologies, training regional team members and cutting mean time to resolution (MTTR) by 25%.
- Validated router interfaces and backhaul connections for 50+ monthly circuit turn-ups with a 99% first-time-right rate.

Apricot Consulting LLC (Client: Sprint) | Spokane, WA (On-Site)

Switch Engineer | May 2012 – March 2015

- Configured Cisco and Nokia routers/switches for cell site backhaul and aggregation during Sprint's LTE deployment.
- Executed router scripts for 200+ LTE site circuit turn-ups and verified L2/L3 traffic routing protocols.
- Performed data fill operations on call servers and RNC platforms in coordination with field teams prior to cutover.

EARLY CAREER EXPERIENCE

- Network Engineer | WVUH Jefferson Memorial Hospital (2011 – 2012)
- Help Desk Associate | Jorge Scientific Corporation (2009 – 2011)
